

Campaign Bulletin 100002

Date: May 7, 2010
Subject: Floor Loading Information
Models and Serial Numbers Affected:
Z-80: Z80-101 to Z8009-2448
Allowable Hours: 30 minutes

Issue:

Genie Industries has determined that the above referenced machines were produced with the wrong floor loading information in the operator's manual and on the decals. This information indicates that the maximum wheel load is less than the actual maximum wheel load. **Incorrect floor loading information may result in the user operating the machine on a surface that is not capable of supporting the maximum wheel load.**

Action Required:

This bulletin requires replacement of the operating instructions manual and wheel load decals on the above referenced machine.

1. Locate all machines within the serial number ranges shown above.
Note: Enclosed is a list of affected machines under your account.
2. Locate and destroy any hard copies or electronic files in your inventory for the operator's manuals listed below:
 - P/N 82258 (1st edition_4th printing and previous versions)
 - P/N 82578 (2nd edition _4th printing and previous versions)
 - P/N 1000237 (3rd edition_3rd printing and previous versions)

Note: You can download the latest version of the Operating Instructions Manual from the Genie website located @ http://www.genieindustries.com/operator_manuals.asp

3. Using the table in the attached Parts Order Form, determine the Decal/Operator's Manual kit for your machine.
4. Completely fill out the kit Parts Order Form and return to Genie's Parts Department to receive the Decal/Operator's Manual Kit for your machine at no cost.

**FAILURE TO COMPLETE THIS BULLETIN MAY
RESULT IN DEATH OR SERIOUS INJURY.**
